THE POWER OF ARTENA

ARTENA FACT SHEET

- Designed specifically for the New Zealand tertiary sector
- Artena is MOE certified, with reporting and data extracts or direct interfaces for SDR, UIP, NZQA, VOS, NSI, INZ, LLN
- Interfaces with Moodle, TechnologyOne Financials, Exonet, Syllabus Plus, Public Trust and Experian Address validation. Interfaces to other software used by your organisation can be developed
- ArtenaBI - provides the backbone for all your management reporting requirements
- A single source of truth for student information, from their initial enquiry through to graduation
- Locally supported with a dedicated helpdesk based in Wellington
- The system is web-enabled and can be hosted on your servers or in the Artena cloud. Artena is accessible remotely irrespective of where hosted
- Participating in user forums and working groups allows for client input into the Artena Product Roadmap and the future development of Artena
- A single annual fee allows for unlimited student numbers and users using the system, and for an unlimited number of campuses
- Artena is modular – use only the system modules required to support your organisation's business requirements
